MAKING TRUCKING MORE SUSTAINABLE

EVERY DAY IS EARTH DAY AT APERIA TECHNOLOGIES.

According to the Environmental Protection Agency (EPA), using Halo Tire Inflator* every year is the equivalent to:

930 tons of waste recycled rather than dumped in a landfill

600 less passenger cars on the road

45,000 tree seedlings grown

AND THANKS TO HALO, every year an average trucking fleet*:

Reduces **3,000** tons
of CO2 emissions

Saves **212,000**
gallons of diesel

Saves
1,400 tires

Saves more than
\$2.2 million

How will you help the Earth this year?

*Based on an average trucking fleet with 1,000 class 8 trucks
