DRIVER FEATURES

COMPLETE PRE-TRIP TIRE INSPECTIONS

Now it is easier than ever for drivers to complete their pre-trip tire inspections. Halo Drive reminds drivers to run pre-trips and conducts them with the touch of a button so you don't miss a thing before hitting the road!

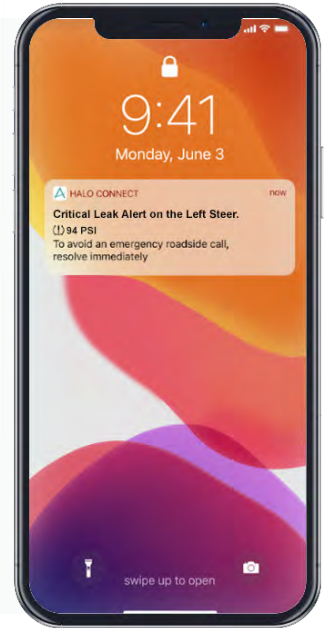

RECEIVE REAL-TIME TIRE HEALTH UPDATES ON THE ROAD

Issues needing immediate driver attention are shared instantly to enable drivers to tackle critical issues before a tire goes completely flat or causes downtime.

TOTAL CUSTOMIZATION

Customize tire health alerts, and display key information that is most important to you.

FLEET MANAGER FEATURES

REVIEW DRIVER PRE-TRIP TIRE INSPECTION LOG

Get confirmation when pre-trip tire inspections are executed and missed. Identify driver training opportunities for continuous improvement.

ALERT CUSTOMIZATION

Fleet managers determine what data to make available to drivers, and how frequently to minimize distractions.

DRIVER MESSAGING AND INSTRUCTION

Tell your drivers how you would like them to respond to tire health alerts right through the HaloDrive application.
